## CORE COMPETENCIES

### Web Applications

Angular  
React  
Vue

### Mobile Applications

iOS  
Android  
Xamarin

### Cloud Architecture

.NET Core  
Java/Spring  
AWS/Azure/Google

### User Experience

Wireframes  
Visual design  
User research

### IOT & Emerging Tech

Bluetooth  
RFID  
NFC

### Artificial Intelligence

Machine learning  
Predictive analytics  
Image recognition

### Product Strategy

Journey mapping  
User interviews  
User personas

### Digital Marketing

Websites (CMS)  
SEO & SEM  
Email & PR

## ABOUT US

Since 2008 Seamgen has been designing and building custom software solutions for the desktop, web, and mobile platforms. Located in downtown San Diego, our team of user experience experts and software engineers have delivered digital solutions to user problems across a range of industries from healthcare to finance to communications. We have experience with regulated software and standards-compliance. We take great pride in delighting our customers.

Seamgen is based in San Diego, CA and since 2008 they have been designing and building custom software solutions for the desktop, web, and mobile platforms. We are dedicated to positively impacting the lives and experiences of individuals through the implementation and utilization of design and technology. We have delivered digital solutions to user problems across a range of industries from healthcare to finance to communications.

## DIFFERENTIATORS

- We've been using public and private clouds since their inception, so we're experts at designing for the cloud, building for the cloud, and migrating to the cloud.
- We've delivered numerous mobile applications using a range of technologies from pure native to Xamarin and React.
- We're experts at managing large datasets and building data-driven applications.
- Our user-centric design philosophy ensures the right features get built, and that users will use the end product.
