

## Capability Statement

www.renodry.us

We dry out old buildings. Preserving the masonry foundations of America. We offer you an overall concept, with a range of different products to solve completely and once and for all the problems you have with rising ground moisture in your building.

We have experts for you who are familiar with the subject and can advise you in the best possible way. We take measurements after installation and provide support until your home or building is dehumidified.

## Core Competencies

### • Masonry Diagnostics

The RENODRY Masonry Diagnostic Exam is exactly what you need to find out where the moisture in your walls comes from.

### • Dry Out Walls

Rising capillary ground moisture is the moisture we can help you with. Our RENODRY technology rapidly dehydrates your walls.

### • Nano Protection

Our advanced Ector brand nanoproducts are high-quality nanoproducts developed in collaboration with experts. The solvent and silicone-free, anti-allergic, environmentally friendly and ready to use.

### • Mold Removal

Our Keeper® anti-mold product helps you to eliminate the mold. Our technology stops this rising damp, so that the walls can dry out and be finally renovated.

## Differentiators

- ✓ Veteran Owned Business
- ✓ Our team of experts in the field of wall drying and nanotechnology created the brand combining the strengths of their individual fields for a unique product far superior to previously existing solutions for rising moisture.
- ✓ Environment-friendly
- ✓ Non-invasive
- ✓ No cutting
- ✓ No chemistry
