

WennahCo is a minority owned small business specializing in cutting-edge cyber security solutions combined with leading IT services and threat mitigation. As a force multiplier we ensure our clients may focus on mission success and continuity of operations. Further, we embrace the full range of human factors and related threat identification capabilities to provide cross-functional collaboration and training that many security firms in the IT and cyber world lack.

Founded to ensure absolute security while meeting or exceeding customer expectations, WennahCo provides immediate and long-term digital and threat mitigation capabilities. Our focus on the needs of the client ensures your specific solutions, business goals, and security are met. In short, we listen to your concerns and address them – assertively and discretely.

We ensure our clients overcome their challenges by retaining and networking with leading professionals across multiple disciplines and communities. Whether your focus is establishing a new network, upgrading an existing system, creating an insider threat management program, custom building cyber security solutions with scalable and upgradable capabilities, accomplishing compliance and certification, or ensuring secure and continuous business operations, we retain and employ the best and most currently certified and accomplished professionals.
