

# CAPABILITIES STATEMENT

## Certification

Project Management Professional

## Business Structure

Limited Liability Company

DUNS # 100180455

CAGE # 8PKZ3

## NAICS Codes

541690, 541614,  
541611, 541713,  
541715, 541714

## Experience

20+ years combined experience in radiation detectors, organic based sensors, polymers, nanomaterials, radiation shielding materials, synthesis, and additive manufacturing

## Contact info

## COMPANY SUMMARY

- Aaron Washington Labs is a multi disciplinary innovative organization that covers both science and engineering that is primarily focused on the development and integration of sensors and detectors.
- We also specialize in the areas of additive manufacturing, polymer science and materials, nuclear, leadership, and project/program management.

## CORE COMPETENCIES

- Nuclear Detection and Sensors
- Nuclear Shielding and Radiation Resistant Materials
- Innovation
- Material Science
- Nanomaterials
- Semiconductors
- Superconductors
- Project Management
