## STATEMENT OF QUALIFICATIONS

### BUSINESS SUMMARY

Trinity Subsurface Engineering is a Delaware-based subsurface utility engineering company, servicing the Mid-Atlantic region with relevant and recent experience on various types of projects. Our approach to every project is characterized by dedication, preparation, customer service and safety. These core values, combined with continuous improvements of corporate procedures and training, are Trinity's corporate culture. Our clients include engineers, consultants, contractors, facility owners and more.

We provide the highest standard of quality using the latest technologies and techniques in electromagnetic locating (EM), ground penetrating radar (GPR), CCTV pipe inspection, and vacuum excavation. Our highly trained technicians and staff are quality driven and customer service focused.

During an assignment/project, our team thoroughly investigates all aspects of the project to effectively prevent issues before they occur. We strongly believe in and practice coordination, cooperation and communication (CCC) during all phases of your project. We specialize in all underground private and public utility locating and consulting on projects ranging from small residential to large, multi-phased, commercial and industrial projects.

### SERVICES OFFERED

We provide services in the following areas:

- Electromagnetic (EM) Utility Locating
- Ground Penetrating Radar (GPR)
- GPR Concrete Scanning for Conduit, Rebar, Post-Tension cables, etc.
- Underground Storage Tank (UST) detection
- Leak Locating
- Vacuum Excavation
- Video Pipe Inspection/ Lateral Inspection
- Pipe Cleaning/ Heavy Cleaning
- CAD Mapping & surveying - including ASCE Quality levels A through D.

### CUSTOMERS

Bohler Engineering	LF Driscoll Co.	PPL Electric Utilities Co.
Century Engineering	MERCK & Co.	Pettinaro
DelDOT	PECO Energy Co.	Torcon Inc
DelleDonne & Associates	PENNDOT	University of Delaware
Kiewit Corporation	Pennoni	Whiting-Turner
GlaxoSmithKline (GSK)	Allan Myers	U.S. Army Corps Of Engineers
