

HB Suppliers

hbsupplier@supplierhb.com

About Us:

HB Suppliers is a small and nimble Woman owned business born from the desire to be a helping hand during the toughest medical time our country has faced in decades. We have established global ties with oversea partners, which activate the urgent supply chain that we pride ourselves in. Our objective is to serve our hospitals, medical offices, government, and our country by providing a seamless supply of key medical protective equipment to our first responder population.

Core Competencies

- Able to supply key medical protection equipment **immediately** with current stock on hand.
- Able to fulfill **future high quantity orders** with impeccable timing.
- **Global partnerships** provide competitive pricing for the highest quality equipment.
- Focused only on key personal protective equipment to **nail the fundamental** national needs

Key Differentiation:

- Our company leadership has **over 20 years experience** of top tier results in retail sales and supply chain management.
- Our focus is **efficiency** in operations, **effective** communication, and unmatched results.
- Our ability to move urgently when it matters is reflected in our establishment. We're a fairly new company that already has proven that our supply chain is more effective than larger companies.
- We pride ourselves in having a "**no exception mentality**," this means that we will do what it takes, to deliver on our commitment - no exceptions.
