

# Precision Measurement Inc.

## Calibrations & Testing

### CORE CAPABILITIES

- NIST Traceable, Accredited Calibration and Testing of Measurement Equipment
- Repair and Modifications of Test Measurement and Diagnostic Equipment
- Product Validation Testing
- Avionics Test Station Validation
- Environmental Stress Screening
- Medical Equipment Testing

### DIFFERENTIATORS

Precision measurement, Inc. (PMI) is a full-service ISO/IEC 17025 accredited calibration and testing laboratory. All calibrations performed are traceable to national institute of standards and technology (N.I.S.T). PMI utilizes 33K series and NAVAIR procedures in the performance of our calibrations. Our services also comply with ANSI/NCSL Z540-2-1997, ISO 9001, AS9100D, FCC, FAA, and Department of Defense requirements. We can also travel to perform our services at your location, including worldwide. Our technicians have a combined hundreds of years of metrology experience in servicing Test Measurement and Diagnostic Equipment (TMDE). PMI average turnaround time is 10 business days for Military grade calibrations. We also perform repairs and software upgrades to most TMDE.
