

Capability Statement

www.auto-sert.com

Auto-Sert is proud of the intensive research and development we put into our products and the personal care we have provided our customers for over thirty years!

Auto-Sert knows that maximizing production capacity is a priority to almost every successful fabricator. Helping our customers meet and exceed production goals while keeping their employees safe has always been the driving force behind Auto-Sert's team of professionals.

All Auto-Sert presses are ETL, CE and CSA Certified to NFPA 79 Standards and **MADE IN THE USA.**

Core Competencies

- ✓ **The AST-10 Ton press is capable inserting self-clinching fasteners for the metal fabrication industry**
- ✓ **The Auto-Sert Insertion Presses have been helping customers meet their demanding production deadlines for years**
- ✓ **Auto-Sert utilizes the latest in technology and is CE, ETL & CSA Certified. Developed by our team of talented designers and engineers, these insertion presses just don't quit!**
- ✓ **To name a few, manufacturers in the following industries are valued customers:**

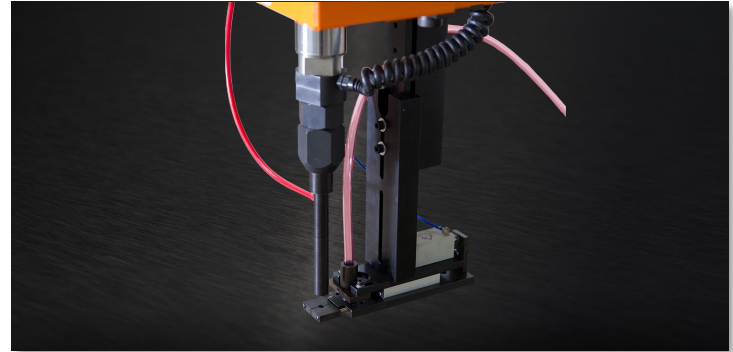

- Appliance (air conditioner, furnace, etc.)
- Government (special press for armored car windshield installation, special press for Nasa to install coils in space station, and standard press for Luke Air Force Base)
- Medical device (respirators, etc.)
- Digital product (stadium screens, outdoor signs)
- Airline (tv and digital screen enclosures)
- Banking (banking equipment)
- Automotive (hose reels, motor mounts, etc.)
- Home Goods (coffee maker manufacturer, etc.)
- Electrical (light manufacturers)

These just touch on the hundreds of customers we were able to help over the last 30 years
