NAICS: 238220

DUNS: 929042968

CAGE: 3XQJ7

SIC: 5183

GSA # GS21F012GA

Founded in 1965, Lippert Mechanical Service Corp. has been providing quality service on large industrial HVACR systems in the greater Kansas City area for decades. Our expertise includes, but is not limited to:

- Centrifugal chiller teardowns
- Rotary screw compressors
- Turbocor compressors
- Package RTU / split systems
- DDC controls
- Design/build retrofit projects
- VRF Systems service & installation
- Chilled water and hot water hydronic systems
- High and low pressure steam systems
- CRAC & IT air-conditioning systems
- Air distribution systems such as VAV, VVT, dual duct, multi-zone, 100% makeup air and constant volume AHU units
- R-Stamp welding certified boiler makers for industrial boiler work

Lippert Mechanical technicians average more than 21 years industry experience and all are **NFPA70E** and **MSCA Star Certified**. Lippert Mechanical also specializes in **Full and Standard Service Maintenance Contracts** tailored to meet each client's specific needs. Our business model may sound simple, but it holds just as true today as it did in 1965: "Be the best company with the best people and you will be rewarded with the best customers"

A few of our clients:

- V.A. Hospital, Lansing, KS
- Rockhurst University
- State of Missouri, Department of Conservation
- City of Kansas City, MO
- Kansas City, Missouri School District
- Kansas City Power & Light
- Kansas City Water Services
