

Capabilities Statement

www.dynamicintegrated.net

Dynamic Integrated Security's story began in 2004 when a group of former members of the Israeli Defense Forces (IDF) created the security firm, Beit Alfa Security. Their mission was to provide international corporations, such as Nestlé, Wyeth, Amway, and others with security services in South America. Dynamic Integrated Security was created six years ago, in order to expand our operations into the U.S. market. We deliver a wide range of customized security solutions to homeowners, businesses, community associations, institutions, etc.
