

HEATING & PLUMBING ENGINEERS, INC.

MECHANICAL CONTRACTORS SINCE 1947

CAPABILITY STATEMENT

Heating & Plumbing Engineers, Inc. (HPE) is a full-service Mechanical Contractor with a 24/7 Commercial HVAC and Plumbing Service Division. We install and service heating, ventilation, air-conditioning, refrigeration, HVAC and plumbing systems. We build and design HVAC and Plumbing/Piping Mechanical Systems for new construction, tenant finish, and re-models. HPE is family owned and operated since 1947 serving the Southern Colorado Region. HPE is women owned and certified WBENC since 2004. Our mission is to build and maintain systems that provide comfort for life.

PLAN/SPEC CONSTRUCTION

HPE focuses on managing its manpower and commitments so that it can authoritatively drive project schedules making HPE an asset to the project.

HPE's experience and processes enable us to install work right the first time, minimizing rework costs and time.

HPE's startup, commissioning and warranty division is second to no one and allows the most difficult part of the project to be accomplished quickly and confidently.

OUR CORE VALUES

MOTIVATED

AUTHENTIC

CRAFTSMAN

It has been our mission for the past 75 years to be the mechanical, plumbing and service contractor of choice in Southern Colorado. Our success is largely attributed to our employees and our focus in on customer satisfaction.

PAST PERFORMANCE

HPE has a proven track record of success in delivering on time quality construction to a variety of industries including government, healthcare, manufacturing, educational institutions and commercial businesses. We have consistently received high customer satisfaction ratings for our reliable, efficient and innovative solutions.
