

## CAPABILITY STATEMENT

Draco IT Services, LLC delivers comprehensive IT solutions with a focus on cybersecurity, cloud security, security management, and system engineering. Our team leverages industry-leading technologies and deep expertise to safeguard digital assets, optimize technology infrastructure, and ensure systems remain secure, efficient, and resilient against emerging threats.

## CORE COMPETENCIES

- ◆ **IT Management & Strategy:** Comprehensive oversight and strategic planning to align technology with organizational goals
- ◆ **IT Consulting & Project Management:** Expert advice, solutions, and efficient management of IT projects from initiation to completion
- ◆ **Cyber Security:** Advanced solutions to protect systems and data against evolving threats
- ◆ **Cloud Services & Migration:** Comprehensive cloud-based infrastructure, seamless data transition, and enhanced efficiency
- ◆ **System Engineering & Integration:** Design, development, and interoperability of robust, scalable technology systems
- ◆ **Data Analysis:** In-depth analysis for improved decision-making and system optimization
- ◆ **Software Development:** Creation of custom software solutions to meet specific operational needs
- ◆ **Custom Computer Programming:** Tailored programming services to address unique technical challenges

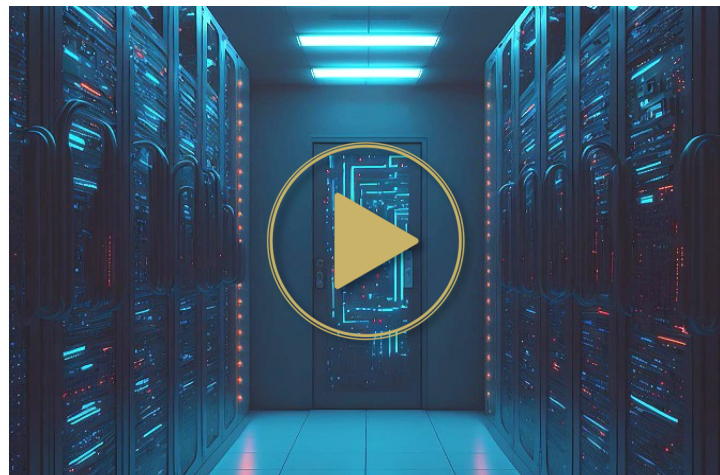

## DIFFERENTIATORS

At Draco, we've built a team culture that embodies the elite security leadership principles of our founder. Every client engagement benefits from our:

- ◆ **Technical Excellence Ecosystem:** Our carefully assembled team combines specialized expertise across all critical security domains, delivering solutions that remain effective against emerging threats while optimizing your existing resources.
- ◆ **Strategic Security Architecture:** Through our collaborative methodology, we design and implement comprehensive security roadmaps that transform security from a cost center into a business enabler, aligning protection measures precisely with your organizational objectives.
- ◆ **Cross-Functional Integration Approach:** Our team embeds directly within your business units, creating seamless security partnerships across IT, development, and executive leadership that eliminate information silos and accelerate secure business initiatives.
- ◆ **Threat Intelligence Framework:** The proactive security DNA of our firm drives our continuous monitoring and risk mitigation processes, enabling clients to address vulnerabilities before they impact operations or reputation.
