

CAPABILITY STATEMENT

CRSPOTLESS.COM

With 21 years of expertise, **Spotless Water Systems LLC** specializes in the design, manufacture, installation, and servicing of Reverse Osmosis and Deionized water systems for residential, commercial, and industrial applications. Our systems are integral to applications ranging from vehicle and equipment rinsing to critical functions in labs, hospitals, and chemical processing plants, providing a comprehensive solution for diverse water purification needs.

CORE COMPETENCIES

Comprehensive Design, Installation, and Service

- **Design & Engineering:** Customized design solutions for both Reverse Osmosis (RO) and De-ionized water systems, ensuring optimal performance tailored to specific requirements
- **Installation:** Professional installation of RO and De-ionized water systems, including full integration with existing infrastructure
- **Maintenance:** Routine maintenance services to keep both RO and De-ionized water systems operating at peak efficiency
- **Repair & Support:** Prompt repair services and emergency support for RO and De-ionized water systems to ensure minimal downtime
- **System Upgrades:** Upgrading and replacing components of RO and De-ionized water systems to enhance performance and meet evolving needs

COMPANY SNAPSHOT

CAGE: 9YTT1 **UEI:** XQVSAVBSE968

Gov. Business POC: Charles De Went

Phone: (619) 247-1398

E-Mail: chuckd@crspotless.com

Address: 2565 Rio Palermo Ct, Punta Gorda, FL 33950

Work Area: Nationwide

Socio-Economic:

- *Veteran-Owned Small Business*

DIFFERENTIATORS

- **Proven Industry Leadership:** 21 years of continuous excellence and customer satisfaction in Reverse Osmosis and Deionized water systems field.
- **VOSB Certified:** Veteran-Owned Small Business certified, demonstrating a commitment to quality and service.
- **Direct and Responsive Communication:** Prompt in-person communications to ensure clear and effective service.
- **Unwavering Product and Service Integrity:** Full commitment to the quality and reliability of our products and services.
- **In-House Expertise:** We manufacture and regenerate our own Ion Exchange Media, ensuring consistent quality and supply control.
