

CAPABILITY STATEMENT CORECLINICALTRIALS.CO

Core Clinical Trials: Your Premier Partner in Clinical Research Success
 At Core Clinical Trials, we connect research sites with pharmaceutical sponsors, streamlining each phase of clinical trials to maximize results and drive innovation. Our full-spectrum services—from study placement and patient recruitment to rigorous regulatory compliance—deliver a proven track record of high-quality outcomes that empower sponsors and participants alike. Trusted by global life sciences leaders, we excel in delivering precision, reliability, and efficiency to every clinical trial.

UNMATCHED CAPABILITIES & EXPERTISE

- **Regulatory Compliance & Site Support:** Ensuring adherence to all regulatory requirements and providing comprehensive support to research sites.
- **Phase I-IV Capabilities:** Expertise in managing clinical trials across all phases, from initiation to completion.
- **Targeted & Proven Patient Recruitment:** Our innovative recruitment strategies efficiently engage and enroll qualified participants, ensuring trials meet their milestones swiftly and with high retention rates.
- **OnSite Nurses:** Certified Nurses for in-home visits, ensuring flexibility and convenience for patients. Decentralized Trials (DCT). Fully integrated DCT solutions that extend clinical trials beyond traditional site-based models.
- **Decentralized Trials:** Innovative approaches to conducting trials remotely, increasing accessibility and participation.
- **Diverse and Expansive Network:** Core offers an extensive, nationwide network of top-tier research sites, ensuring optimal site selection and unmatched collaboration that accelerates timelines and enhances trial outcomes.
- **Comprehensive Clinical Trial Support:** From early planning to final execution, our integrated services provide seamless trial management across all stages, backed by exceptional knowledge and resources.
- **Rapid Trial Startup:** Our fully equipped, research-ready sites are primed to launch studies swiftly, reducing startup times and getting your research moving faster.
- **Multi-Therapeutic Specialization:** With deep expertise across 20+ therapeutic areas, Core Clinical Trials stands ready to manage complex and specialized studies, offering insights and innovations that enhance each project's success.

PAST PERFORMANCE

Our success with high-impact clinical trials, including a recent DCRI/NIH COVID-19 study enrolling over 1,900 participants, exemplifies our commitment to effective, large-scale trial management.

PRIMARY NAICS & PSC CODES

- 541715 - Research and Development in The Physical, Engineering, And Life Sciences (Except Nanotechnology and Biotechnology)
- 541611 - Administrative Management and General Management Consulting Services
- 541714 - Research and Development in Biotechnology (Except Nanobiotechnology)
- AN33 - Health R&D Services; Consumer and Occupational Health and Safety; Experimental Development
- AN43 - Health R&D Services; Health Care - Other; Experimental Development
- R499 - Support- Professional: Other

COMPANY SNAPSHOT

CAGE: 928T3 **UEI:** XVJYQFE33R56
Gov. Business POC: Michelle Alex, DPM
Phone: (949) 430-6711

Address: 220 Newport Center Drive, Suite 11-587, Newport Beach, CA 92660
Work Area: Nationwide
Socio Economic: Women-Owned Small Business

CORE CLINICAL TRIALS IS HERE TO ADVANCE YOUR MISSION

With a relentless focus on quality, efficiency, and inclusivity, Core Clinical Trials is the expert partner federal agencies can rely on to bring new treatments to life. We're ready to support your research goals with dedication, expertise, and results-driven services.

STRATEGIC DIFFERENTIATORS

- **Regulatory Compliance & Dedicated Site Support:** CCT ensures rigorous adherence to all regulatory standards, safeguarding your trial's success and simplifying compliance.
- **AI-Driven Recruitment and Retention:** Streamlined Screening for rapid enrollment and retention, meeting milestones efficiently and ensuring meaningful engagement throughout the study lifecycle.
- **Innovative Decentralized Trial Solutions:** CCT integrates cutting-edge DCT models, providing flexible, patient-focused alternatives that extend trials beyond traditional settings to increase accessibility and diversity.
- **OnSite Nurses for Decentralized Trials:** Our certified nurses facilitate in-home visits, offering convenience and enhanced participation for patients. Therefore, eliminating geographical barriers that limit patient access to critical clinical research.
- **Dedicated to Diversity, Equity & Inclusion:** Strong DEI initiatives ensuring representation of diverse populations in clinical trials.
- **Trusted by Global Leaders in Life Sciences:** Our reputation for clinical trial management excellence has made us the partner of choice for top-tier life sciences companies worldwide.
- **Expansive Research Site Network:** Access to 50+ research ready sites across 20 therapeutic areas all under one contract and budget.
- **Rapid Trial Startup:** Our fully equipped, research-ready sites are primed to launch studies swiftly, reducing startup times and getting your research moving faster.
- **Multi-Therapeutic Specialization:** With deep expertise across 20+ therapeutic areas, Core Clinical Trials stands ready to manage complex and specialized studies, offering insights and innovations that enhance each project's success.
- **Distinctive Value as a Women-Owned Small Business (WOSB):** Certified as a WOSB, Core is dedicated to scientific excellence and the advancement of diversity in clinical research. We are committed to inclusive trial practices, addressing underrepresentation, and supporting government diversity goals. Our unique position and capabilities as a WOSB make us a valuable partner for agencies aiming to lead innovative and equitable research initiatives.
